

## Work Study Application 2011-2012 Program Year

ACPPA Community Art Center strives to provide access for students to community arts education regardless of financial situations. Our work study program allows students who demonstrate a deep commitment to art and a financial need to participate in classes at no fee in exchange for volunteer hours.

Participation in our Work Study Program is dependent upon the following factors:

1. Student must submit an application demonstrating financial need as well as a commitment to art and community.
2. A parent or guardian (or student aged 16 and older) must complete 1.5 hours of volunteer work for every hour long class student is enrolled in. Failure to complete the volunteer aspect will result in immediate termination of work study scholarship.
3. Work study scholarships will only be offered for classes that have met the minimum student enrollment.
